Creating a Container

The screenshot shows the JAGGAER ERM Researcher interface for creating a container. The main form includes sections for General, Product Information, Additional Fields, and Reservations. A 'Print Label Options' dialog box is open, with the following fields:

- Label Type ***: Container Detail
- Printer ***: CHEM-F10-LG10
- Copies ***: 1

Buttons for 'Print' and 'Close' are visible at the bottom of the dialog. The background form shows a container with status 'AVAILABLE', owner 'Trung Tuong', and various dates and locations.

- ▶ Click  button which will prompt the appearance of the “**printer**” icon
- ▶ Click on the  icon to print barcode which prompt window to select the label type and printer and Click the print button to complete the action
